

Great Open Door is known by schools for our creative methods of storytelling in assemblies. Our After School Clubs have been developed to assist schools with providing interactive programs, such as, singing and animations using digital technology.

We are offering After School Clubs running for 45 to 60 minutes, once a week for a half term, to schools in and around Harlow. These clubs are aimed at children in Key Stage 2 and would offer up to 20 places on a first come first served basis.

It's all great fun for kids!

SINGING CLUB

The Singing Club will explore the theme of how to shine inside and out. We will sing a range of genres of music, including current popular music and Christian songs. The songs chosen will have a strong message of having a positive self-image and how to shine in our communities. Some of these songs will focus around British values, such as tolerance and mutual respect.

While most of the club will be focused on singing, we will read through the words we are singing and discuss what that looks like in our lives.

GUARDIANS OF ANCORA CLUB

'Guardians of Ancora' is a world-class tablet game, developed by Scripture Union, for 8- to 11-year-olds offering an amazing virtual world and an immersive interactive experience of Bible stories. It combines the excitement and creativity of a high-spec online game with an immersive experience of Bible content and faith exploration.

Players go on an exciting journey that will lead them through the virtual world of Ancora, as they explore the stories of the Bible.

ANIMATIONS CLUB

Living in a digital age, we would love to get the children in schools telling stories using technology. The children would use tablet devices to retell a Bible story using stop motion technology.

At the Animations Club, the children will be told a Bible story and they will then plan an animation based on this story, putting the key events into a storyboard. Over the following weeks, they will use the Minecraft Stop-Motion app on our tablets to create their own animation of the Bible story.

Equipment

We provide the tablets where required for the Clubs. We have parental controls enabled on our tablet devices, meaning the children are only able to access apps/content relevant to the after school they are attending.

We understand that most schools do not allow outside organisations to store images of pupils on their devices, therefore we are providing Lego-style toy figures for children to use as characters in their animations and will ensure that any images of the children that are taken are deleted immediately.
